

Congratulations! Use these exclusive game hints to help you on your way through Ed, Edd n' Eddy: The Mis-EDventures.

SCAM 1:

Look out for the Red Squirrels! They'll stick to you and bite! Jump a couple of times to get them off of you, and give them a good whacking with your square button to get rid of them.

SCAM 2:

Having a hard time at the party breaking those Piñatas? Try pressing the X Button when doing the Trampol-Ed. That should give you an extra boost to break those things open.

SCAM 3:

Sneak past Jonny by using the Tower of Eddy and hiding behind poles by using the triangle button when you are close to the pole

SCAM 4:

Remember to Batter-Ed through weak-looking boards, smash crates, and look behind and on top of things for switches and items to pick up. Remember to use Tower-of-Eddy when you have to walk across thin boards or beams.

SCAM 5:

Don't forget to search for the hidden level when you finish this scam. It will be available somewhere in the woods if you dug in all the sand boxes.
